

Hid-A-Meal

Fortify your lunch and protect wildlife

Vehicle and property damage from the improper storage of food supplies is a growing concern. In one national park alone, annual damage has been reported as high as \$250,000. Locking food supplies in a bear proof food storage locker eliminates private property damage and keeps the bear's diet natural.

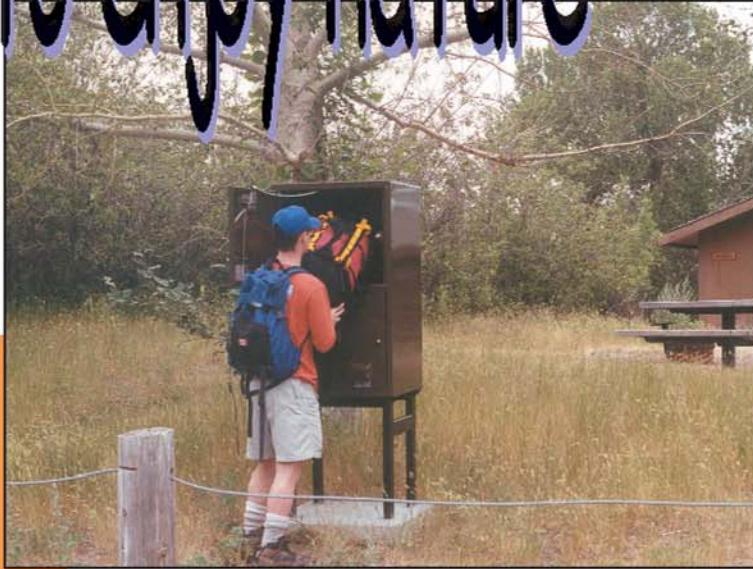

The Hid-A-Meal is the perfect solution for storing your food without the worry of attracting animals. It is a proven method of eliminating food rewards, keeping shared wilderness locations safe for people and bears.

Making communities, parks and wilderness locations safe for people and bears

A safe way to enjoy nature

CONSTRUCTION FEATURES

- Sturdy construction and bear proof latch eliminate animal access.
- 12 gauge panels and 14 gauge doors are **press formed** for extra strength and durability.
- **Powder Paint** provides unbeatable impact and rust resistance.
- Buried **concrete anchors** prevent the container from being tipped.
- Each door can be locked with a user padlock.

- Available with 2 to 10 compartments, perfect for front and back country applications.

- Safe and easy to use for the whole family.

- Storing food in the Hid-A-Meal is the only safe solution.
