# HAUL-ALL EQUIPMENT LTD WASTE & RECYCLING SOLUTIONS

Haul-All Equipment specializes in the design, manufacture, sale and support of waste and recycling systems including storage containers, collection vehicles and transfer stations.

40+ years experience  
30+ Patents & Trademarks  
IGBC Certified Products

Our focus is on delivering high-quality products and pioneering advancements in the industry.

## THE HID-A-MEAL SERIES:

### SECURE AND DURABLE FOOD STORAGE SOLUTIONS

The Hid-A-Meal series brings robust and versatile food storage options, crafted with the same attention to durability as our acclaimed Hid-A-Bag containers. Made from galvanized steel with stainless steel components, these lockers offer exceptional resistance to rust and impact, ensuring longevity. Designed with bear resistant latches and optional concrete anchoring, they provide secure storage against animal interference.

This series encompasses four designs tailored to various needs: The Trailhead, Campsite, Cabinet, and Cache. Each model is designed for efficient space use and easy access, making them ideal for a range of outdoor settings.

Choose the Hid-A-Meal series for reliable, environmentally-friendly food storage in your community or project.

# HID-A-MEAL SERIES

The Hid-A-Meal Series offers a host of solutions for bear resistant food storage at the trailhead, cook shelter, single or shared campsites, and more. The Hid-A-Meal is manufactured in the same way as our Hid-A-Bag container. The Series includes four food storage locker designs. The Trailhead, Campsite, Cabinet, and Cache.

## THE TRAILHEAD

The Trailhead is a modular two-compartment design with a frame stand to keep the units up off the ground, away from animals and insects. Each two compartment locker has a capacity of 14 cubic feet (396 litres) and features a padlock pin to allow users to lock their food and valuables.

## THE CAMPSITE

The trailhead is a dynamic food storage locker, available in 14 or 21 cu feet, with a frame stand to keep the units up off the ground, away from animals and insects. Available with an optional shelf kit and padlock hasp to allow users to lock their food and valuables.

# HID-A-MEAL SERIES

The container is further protected by powder paint, for a long-lasting coating which provides unbeatable impact resistance, and riveted instead of welded to maximize service life. Sturdy construction, bear resistant latches and padlock hasps eliminate animal access. Optional concrete mounting pads with our proven anchoring system prevents the container from being tipped or moved.

## THE CABINET

The Cabinet is a high volume design intended for central locations like campground cook shelters. Available with two, four, or six compartments, multiple units can be placed side-by-side and/or back-to-back to maximize capacity and minimize footprint. Each compartment has a capacity of 20 cubic feet (566 litres) and can be ordered with an interior folding shelf.

## THE CACHE

The Cache accommodates the highest volume of the Hid-A-Meal line and is available as a single or double unit. Two rows of shelves line the inside walls of each unit, like a wilderness pantry of sorts. To save on freight costs, the Cache ships knocked-down to be assembled on site.
