THE CFL6:

STREAMLINED COMMERCIAL WASTE MANAGEMENT

The CFL6 front load commercial bin is designed for accessibility, with a low loading height that accommodates all users.

Available in versatile configurations, it features an easy-to-use door mechanism that enhances user convenience and efficiency in waste disposal.

Built with durable galvanized steel and finished with a high

gloss powder paint, the CFL6 promises lasting performance in any commercial setting. Its construction is complemented by a Crosstube Bumper for added impact resistance, ensuring the bin's longevity.

Delivered ready to use or in nested form for cost-effective shipping, the CFL6 is straightforward to set up. With its

practical dimensions and significant capacity, it meets the needs of diverse commercial environments.

Choose the CFL6 for an efficient, durable, and user-friendly solution to commercial waste management in your project or community.

CFL6

The CFL6 is an automated bear and animal resistant front load container with nestable hopper and lid for storage and freight efficiency. Front load protection from the most reliable and experienced company in the industry. 36 inch low loading height and auto release unloading door.

OVERVIEW

The CFL6 is manufactured from galvanneal steel panels for strength and unmatched rust resistance. The container is further protected by powder paint, and optional armorthane coating, which provide unbeatable impact resistance.

Sturdy construction, bear proof latches on loading doors, and fork-actuated release on unloading door eliminate access to dumpster-diving bears and other critters. The CFL6 is a dumpster like no other.
